

Data Protection Policy

Yarlet School collects and uses personal information about staff, pupils, parents and other individuals who come into contact with the school. This information is gathered in order to enable it to provide education and other associated functions. In addition, there may be a legal requirement to collect and use information to ensure that the school complies with its statutory obligations.

Schools have a duty to be registered, as Data Controllers, with the Information Commissioner's Office (ICO) detailing the information held and its use. These details are then available on the ICO's website. Schools also have a duty to issue a Fair Processing Notice to all pupils/parents; this summarises the information held on pupils, why it is held and the other parties to whom it may be passed on.

Purpose

This policy is intended to ensure that personal information is dealt with correctly and securely and in accordance with the Data Protection Act 1998, and other related legislation. It will apply to information regardless of the way it is collected, used, recorded, stored and destroyed, and irrespective of whether it is held in paper files or electronically. It also takes into account the expected provisions of the General Data protection Regulation, which is new legislation due to come into force in 2018. This policy complies with our funding agreement and articles of association.

All staff involved with the collection, processing and disclosure of personal data will be aware of their duties and responsibilities by adhering to these guidelines.

What is Personal Information?

Personal information or data is defined as data which relates to a living individual who can be identified from that data, or other information held.

Data Protection Principles

Article 5 of the GDPR requires that personal data shall be:

- processed lawfully, fairly and in a transparent manner in relation to individuals;
- collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes;

- adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed;
- accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay;
- kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals;
- processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

Article 5(2) requires that

“the controller shall be responsible for, and be able to demonstrate, compliance with the principles.”
